Virtual Workshop/Keynote Abstract

"Keys to Constructive Racial Dialogue"

Abstract

Most people around the world struggle to have effective racial conversations. But race does not have to be contentious if we learn the art of constructive dialogue. This interactive training introduces attendees to (2) mental pre-talk postures that enhance dialogue, (3) conversation "stoppers" and "movers" (words and phrases), and (2) keys to understanding perception and how it affects racial decision making.

"His ability to grab the audience's attention from beginning to end is unmatched. His willingness to blend his personal life tragedies along with his corporate experience makes him a must have at your next event"
